ABOUT NATIONAL OILWELL VARCO

National Oilwell Varco (NOV) are based within their own compound on the Flotta Oil Terminal and their immediate organisation has offices in Aberdeen and London. However, NOV are a global company with more than 500 offices across six continents employing 23 locally, 55 nationally and 37,000 globally.

On Flotta, they have a process test facility and environmental laboratories where they carry out process technology development and verification, ecotoxicology studies and environmental services. NOV's staff also go to oil and gas production assets globally to troubleshoot and improve their process performance as well as installing new hardware within process technologies.

CAREERS

Some of the careers available with NOV in Orkney include:

Engineering:
Project Technicians
Project Engineers
Project Managers
Chemists.

Environmental:
Laboratory Technicians
Study Directors (essentially Project Managers)
and QA Functions

In addition, they have roles available in cleaning, administration and management.

QUALIFICATIONS

The qualifications sought will depend on the role, however STEM (Science, Technology, Engineering and Maths) subjects for the technical roles are a huge advantage.

SKILLS

First and foremost, NOV recruit for attitude and train for skills

The team who work for NOV are enthusiastic and innovative who love what they do, so that is always what they are looking for when recruiting. While skills and experience in the areas of work you are interested in is an advantage, they are not always a necessity.

OPPORTUNITIES

Work experience is available to school pupils.

They are also open to **internships**, **work placements** and **apprenticeships** for the right candidates for any of their open posts.
