

Exhibitor Focus

ABOUT BAM NUTTALL

BAM delivers key pieces of infrastructure across the UK, working with public and private sector clients across a range of sectors including rail, highways, air, marine, tunnelling, energy and water.

They use digital engineering and a net zero carbon approach, placing sustainability and great people at the heart of their organisation. They strive to enhance the lives of people in the communities where they work.

They will be working in Orkney over the next three years, on a large substation project that is being built in Finstown. They have multiple offices located all over the UK, including at Kilsyth, Inverness and Camberley. Globally, they employ around 20,000 people.
