ABOUT XODUS

Xodus are a global energy consultancy powered by the expertise and experience of their unique and diverse people. In their Orkney office, they specialise in providing support to offshore energy companies (e.g. wind developers/oil and gas operators) in gaining consent from the government to pursue their projects offshore. Once consent is gained, they provide specialist advice during the installation, construction, and operational phases of projects.

In Orkney they are based at the Garson Industrial Estate in Stromness, with their main office located in Aberdeen. They also have offices in Glasgow, Edinburgh, London, Boston, Houston, Dubai, Abu Dhabi, and Australia employing over 400 globally and 14 people in Stromness.

CAREERS

Xodus provide Graduate entry level jobs including:

Graduate Consultant
Graduate Engineer

Experienced roles include Consultant and Engineer roles at a variety of levels dependent on the experience in the particular industry.

These roles can be more management focussed, i.e. line management, day-to-day running of teams and divisions, or more technical specialist roles.

Anyone starting a career at Xodus will be given the opportunity to diversify out into management or technical specialist roles.
