

# BUSINESS FOCUS: ORKNEY HARBOUR AUTHORITY

## QUALIFICATIONS

At entry level the main core skills will need qualifications in science, mathematics, communication and technical subjects. With the expansion plans included in the Masterplan we will be seeing extra facilities and hence extra roles in the coming years.

## OPPORTUNITIES

The Harbour Authority, as part of the council, offers a range of opportunities such as apprenticeships and placements. We actively encourage further training and specialised industry qualifications to enable personal growth.
