

Questions to Ask

The following are some questions that you can ask any of the people you meet on the stalls at the Orkney Careers Fair:

- How did you get into your current job?
- What sort of skills do you use in your job?
- Is there any advice you can give me to get a job like yours?
- Does your business offer work placements, if so what would the placement involve?
- Do you offer apprenticeship opportunities, if so what are they and how can I access them?
- What skills or experience do you look for in applicants for a job, training or education course?
- Are there any specific apprenticeships, college or university courses that you recommend as a route into a particular job with your business?
- What subjects should I consider studying at school to access a particular course or job?
- Where can I find up-to-date information about your organisation or your vacancies?
